

Combined Mitchell for Multi-session

There is a new movement called Combined Mitchell. It allows you to play 13 rounds in a simple manner when you have 25 tables by merging the two odd tables into one. In fact it's a single-section movement, so you should only use one section and enter 25 tables for that section. It works for all odd table numbers.

When using it for multi-session it doesn't work that well. However, if you let Magic Contest do everything automatically the below will take place. Some double meetings will take place in sessions 2 and 3, but not that many. Also, there are some special pair movements.
